SNIA DEVELOPER CONFERENCE 2025

SDC 2025 SPONSORSHIPS

SEPTEMBER 15-17, 2025

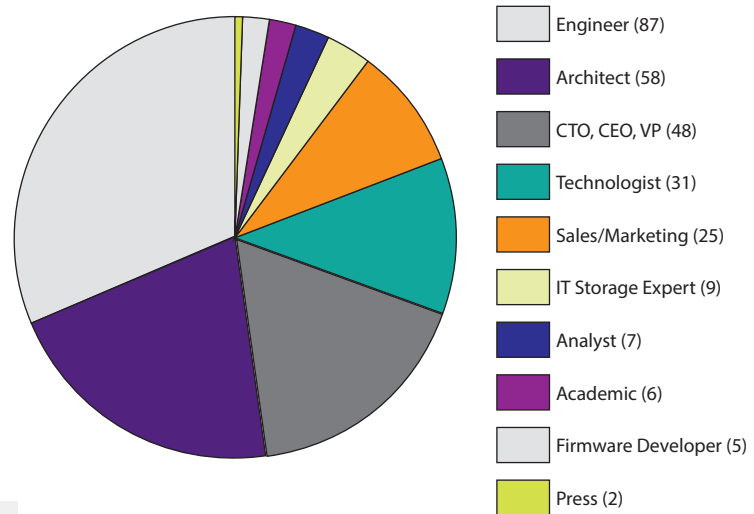

HYATT SANTA CLARA, SANTA CLARA, CA

DESIGNED BY DEVELOPERS FOR DEVELOPERS

Produced since 1998, this is the “must-participate” event of the year. SDC brings together solution-seeking developers, engineers, architects, product/program managers, and technical marketing managers. It will also provide engineering managers, directors, and C-level executives the opportunity to meet the industry’s leading experts, as well as component and solution-providing vendors.

AUDIENCE AND CONFERENCE FOCUS

The audience for this conference comprises the IT development community – primarily software and hardware developers, product and solution architects, software engineers, DevOps, product managers, product quality assurance engineers, product line CTOs, product customer support engineers, and in-house IT development staff.

Audience breakdown from SDC 2024

Great event for networking. The plugfests are an excellent opportunity for interoperability testing with many different vendors.

- Comment from an SDC Attendee

This is the best developer conference I've attended... I liked the breadth across relevant aspects of the industry and the blend appears to be balanced as well... Very well organized and great content... Lively hallway discussions.

CONFERENCE PRODUCER

SDC is produced by SNIA, an industry organization that develops global standards and delivers education on all technologies related to data.

The conference program agenda is developed in conjunction with the SNIA Technical Council—senior CTO office, strategy department, and product management representatives from the leading industry vendors—all experts and all savvy on the needs of our audience.

The event is also supported by many industry leading trade publications, associations, and strategic partners.

CONFERENCE PROGRAM AGENDA

The SDC agenda offers world-class industry updates and education. The content addresses the technical and knowledge needs of our targeted audience—delivered and demonstrated at SDC—in order to equip attendees from IT vendors and users, to large enterprises and organizations, to small and medium businesses with the insight and expertise they require to do their jobs efficiently.
